

# The cost of EU legislation on our industry

A real-time study for the European Commission on our sector reveals startling facts about the impact of EU regulation in the past 10 years.

## The impact of EU regulation 2005-2015

**3x**

**Direct costs  
have tripled**

And together with ETS indirect costs they amount to:

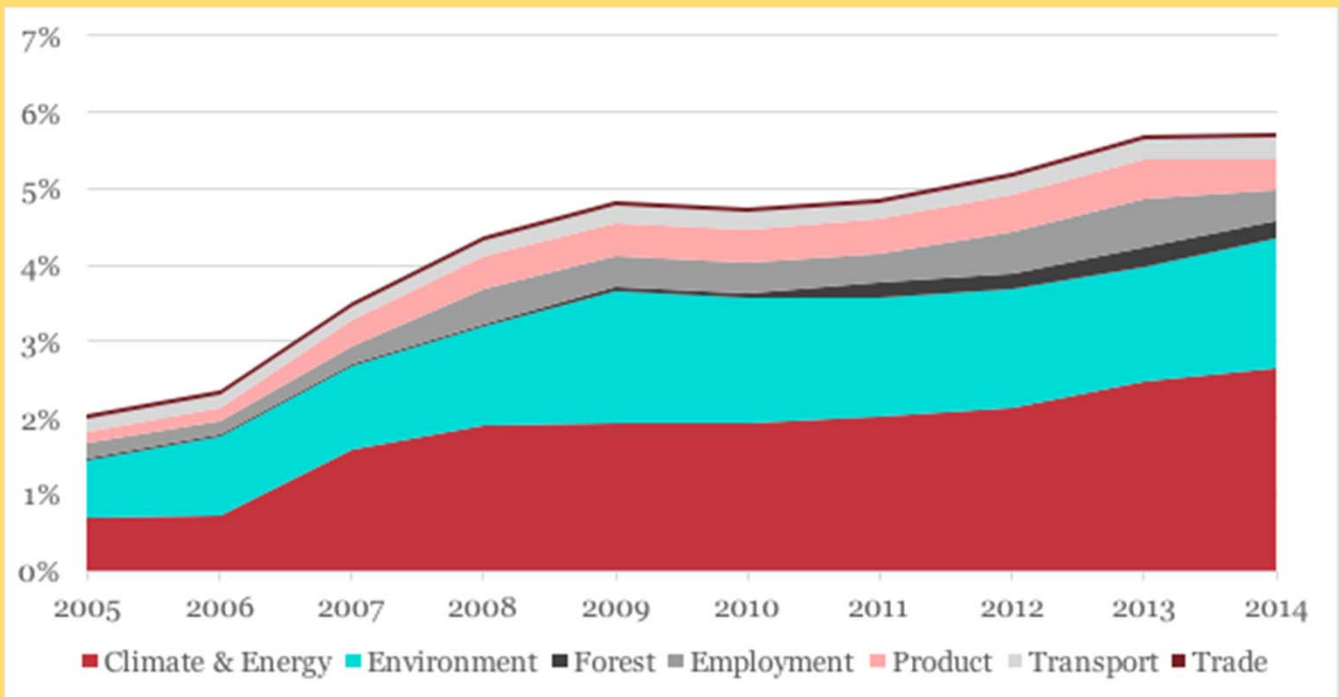

**40%**

Of average industry profitability

**€1.4 billion per  
year**

**Climate change and  
energy regulation=  
2/3 of total  
burden**

## Pulp, paper & paperboard - Direct legislative cost %
